🏆 Théo Wolff

in Théo Wolff

Dynamic, resourceful and rigourous student in engineering school at Mines de Saint-Etienne, specialized in microelectronics and computer science.

I am looking for an internship of 17 to 20 weeks starting on the second of April 2024.

Education

Ecole des Mines de Saint-Etienne
Since 2022 Gardanne
Second year of a three-year engineering masters degree in Computer Science and Microelectronics.

Lycée Kleber
From 2020 to 2022 Strasbourg
Preparatory classes: two-year intensive preparation for the national competitive entrance exams to leading French engineering schools

Lycée Notre-Dame
From 2017 to 2020 Strasbourg
Scientific Baccalauréat with major in Sciences, obtained, with honours, European Option. Equivalent to GCSE A-levels.

Work experience

Organisation of the science festival
October 2023 Gardanne
- Helping to organise the science festival.
- Responsible for stands introducing young people to scientific culture and scientific experimentation.

Salesman / Animator
July 2023 Ravensburger Roppenheim
- Inventory management, shelf replenishment
  Product sales and customer advice

Internship
January 2023 Sidel Reichstett
- Implementation of a Notepad allowing written communication between the support and the HMI user,
- Patching hardening on test bench,
- Development of a demo version of the HMI for customer presentation.

Supervised self-initiative work
From 2020 to 2022 Strasbourg
- Modelling crowd movements during public buildings evacuation.
Python modelling of a room evacuation with obstacles and visualisation of the room with a graphical interface.
